# TRUSTED SUPPLIER OF RAW MATERIALS SINCE 1998

## ABOUT OUR COMPANY

Rebain International is a global chemical trading and distribution company supporting industrial customers across Europe, Africa, the Middle East, and the Americas.

With a strong focus on reliability, compliance, and practical execution, we provide flexible sourcing solutions tailored to each customer's operational needs. Our multicultural team combines technical understanding with market experience to deliver consistent, well-documented supply across a broad portfolio of industrial and specialty chemicals.

At Rebain, long-term partnerships and mutual growth remain at the core of how we work.

## OUR SERVICES

Rebain International supports manufacturers and distributors across **paints and coatings, personal care, oil and gas, water treatment, agro and industrial sectors**. We combine global sourcing expertise with structured supply coordination to deliver reliable, compliant, and market-aligned chemical solutions tailored to operational requirements and regional market realities.

1. **International sourcing & portfolio management**
2. **Flexible packaging & logistics coordination**
3. **Import, export & documentation handling**
4. **Multi-industry supply expertise**

## Leaching & Extraction Chemicals

Essential reagents used to dissolve and recover metals from ore in hydrometallurgical processes.

| Leaching Agents   | Auxiliary Reagents | Oxidizers         |
|-------------------|--------------------|-------------------|
| Sulphuric Acid    | Sodium Cyanide     | Hydrogen Peroxide |
| Hydrochloric Acid | Ammonia            |                   |

## Flotation Reagents

Facilitate selective separation of valuable minerals from ore.

| Collectors | Frothers                      | Depressants |
|------------|-------------------------------|-------------|
| Xanthates  | Carboxymethyl Cellulose (CMC) |             |
| MIBC       | Dithiophosphates              | Starches    |
|            | Alcohol-based Frothers        |             |

## Precipitation & pH Control Reagents

Control alkalinity and enable metal precipitation and neutralisation.

| Alkalinity Sources | Sulphide Reagents           |
|--------------------|-----------------------------|
| Lime               | Sodium Hydrosulphide (NaHS) |
| Caustic Soda       |                             |
| Soda Ash           |                             |

## Flocculants & Coagulants

Improve solid-liquid separation in tailings and water treatment.

| Flocculants                  | Coagulants |
|------------------------------|------------|
| Polyacrylamide (PAM)         | PolyDADMAC |
| Polyaluminium Chloride (PAC) |            |

## Explosives & Blasting Inputs

Chemical inputs used in controlled blasting operations (**PROJECT-BASED SUPPLY ONLY**).

| Oxidisers        | Fuel Components | Additives   |
|------------------|-----------------|-------------|
| Ammonium Nitrate | Fuel Oil        | Emulsifiers |

## Grinding Aids

Enhance milling efficiency and reduce energy consumption.

| Performance Additives                          |
|--|
| Glycol-based Grinding Aids                     |
| Amine-based Grinding Aids                      |
| Hygroscopic Salts                              |
| Organic Binders                                |
| Diluents                                       |
| Forged Steel Ball, Diameters :50 MM -90MM-125M |

## Specialty Metal Extraction Chemicals

Advanced reagents for lithium, rare earths, and strategic metals.

| Lithium Solvents | Rare Earth Collectors | Ion Exchange Resins |
|------------------|-----------------------|---------------------|
| Lithium Solvents | Rare Earth Collectors | Ion Exchange Resins |

## Water & Process Conditioning Chemicals

Maintain equipment integrity and stable process performance.

| Conditioning Agents  |
|----------------------|
| pH Modifiers         |
| Corrosion Inhibitors |
| Biocides             |
| Antifoams            |

## Froth Control & Antiscalants

Optimise flotation stability and prevent scale formation.

| Froth Control        | Antiscalants                   |
|----------------------|--------------------------------|
|                      | Defoamers                      |
| Hydrocarbon Diluents | Phosphonate-based Antiscalants |

## Coal Processing Reagents

Used in coal beneficiation and dense-media separation.

| <b>Collectors</b> | <b>Frothers</b> | <b>Media</b> |
|-------------------|-----------------|--------------|
| Collector Oils    | Coal Frothers   | Magnetite    |
